

ROCHESTER SKYDIVERS

Offers the thrill of a lifetime. If you enjoy the excitement of a roller coaster ride, you will love skydiving! The quiet solitude of a canopy ride may just be the ticket for you. At Rochester Skydiving we offer 3 ways to enjoy this rapidly growing sport at a price that will pleasantly surprise you. Listed below are the different methods we offer. Your choice - after all - it's your time, thrill and money - it should be your choice! After your first jump you will receive a frame-ready first jump certificate, and a skydiving logbook to record jumps. **Caution:** Parachuting/Skydiving is not to be confused with an amusement park ride. There's training and performance skills needed to participate.

Traditional Static Line (S/L) Jump Course begins by introducing you to the sport. We teach you parachute safety, and how the equipment works. The classes continue by learning how to get in and out of the airplane, controlling the parachute and how to land safely. After about 4 hours, equipment will be provided for your first jump (weather permitting). An experienced jumpmaster will bring you up to 3,000' and help you exit the airplane. The parachute will open automatically in 2 to 3 seconds by the use of a static line. Once open, a ground controller will be in constant contact by radio with you throughout your jump until you are safely on the ground. (\$275, Need 3 or more per class) Offered the entire months of April and October and only the first two weekends during the months of May* June-July-August-September. **Call first if interested.**

Tandem Jump Course on a parachute built for two is one of the easiest ways to experience skydiving. The rider and an experienced licensed tandem master wearing a specially designed harness that holds two people safely together will exit the airplane at 10,000 feet, both freefalling 35 seconds through space until the parachute opens at 4,500 ft. The rider experiences a gentle descent while the tandem master and rider will bring the parachute to a precise landing. The pre-jump instruction takes only about 45 minutes for the experience of a lifetime. (\$225*). DVD of your tandem jump \$65 / \$85 Tandem courses offered Wednesday, Friday, Saturday and Sunday Mid-March through November.

Accelerated FreeFall Jump Course (AFF) is for the serious student who desires to continue in the sport. The student is individually guided through the 8 levels of AFF with one or two instructors who will exit together hanging onto the students harness and freefall from 11,000 feet for 45 seconds where then the student will pull his/her own ripcord. The rapid learning curve will bring the student to a level of expertise faster than any other method. (\$725)* By special appointment only (April thru September) \$725 includes 5 to 6 hour AFF first jump course and first 3 AFF jumps. Total cost to graduate our AFF program is \$1,650/\$1,850. There are special guidelines to meet and follow for the AFF program. **Call for details if interested.** Video of AFF jump \$75 / \$95

Rochester Skydiving Center is a member of the United States Parachute Association (USPA) licensed and adheres to USPA safety standards. Rochester Skydiving Center is proud of its safety record throughout its 38 years of skydiving activity with the president of the club having 42 years experience and over 7,300 jumps to his credit. Rochester Skydiving Center uses new state-of-the-art parachute equipment, large colorful square gliding type parachutes that are designed for easy control and tip toe stand-up landings even for first-timers. We keep our prices below our competition to help encourage new people into the sport and our class sizes prove this each season. Mid March - Mid November.

We are proud to say that all of our instructors and staff are home grown from first jump students of RSC. We believe this is the best way to give what new students are looking for from instructors who have gone through our classes and now have hundreds or thousands of jumps. All of our instructors and jumpmasters are USPA licensed, we have F.A.A. certified parachute riggers, a paved runway, multiple aircraft. A spectator area is available for friends and family to watch. **(No Pets or Alcohol Allowed)**

"JUST DO IT"

Classes are held Saturdays and Sundays starting at 9:00 a.m. / 1:00 pm Limited Space, regardless of weather conditions. Weather permitting after completed class, you will make your jump.
