**THANK YOU**

We at Rochester Skydivers have another jumper that wears a video and still camera on his/her helmet that also exits and freefalls with you and your tandem master to capture a 100% panoramic view of your exit from the plane, freefall canopy opening and your landing, music added..

If you are interested in DVD/Stills of your jump (\$80 or \$100 for both) please circle DVD/Still next to your selected class date. (Not always available) Weather conditions can affect doing video also.

**Caution,** don't be fooled and overcharged by centers that use the wrist/hand cam type video of your tandem jump. Your tandem master wears a camera on his/her left wrist during your jump. This is a very limited video version of your tandem jump.
